PERRY SMITH-MOSS

Software Engineer

📞 07879991218 @ perrysmithmoss@gmail.com 🔗 www.perrysmithmoss.com

EDUCATION

BSc with Honours in Computer Networks and Security

University of Wrexham Glyndŵr

📅 2017 - 2020

- I achieved a 1st class classification.

EXPERIENCE

Web Developer (Freelance)

Rob Massam Personal Training

📅 07/2020 - 09/2020

- Converted client mockups/designs into a functional and responsive full-stack website. Created using HTML / CSS / JavaScript / PHP / Wordpress.
- Coordinated closely with client in order to prototype and wireframe the UI/UX design.
- Setup and maintained the hosting of the site using cPanel.
- Developed for future scale-ability of the site.

PERSONAL PROJECTS

Handover

📅 11/2019 - 04/2020
🔗 https://github.com/PerrySmithMoss/handover

As part of my dissertation, this project's aim was to develop a secure mobile messaging application as an effective response to the communication challenges currently faced by medical professionals. This application allows users to communicate, post photos/text, view their activity and have a unique profile page which can be updated.

- Front-end technologies: Dart and Flutter.
- Back-end technologies: Firebase and NodeJS.

Progressive Overload

📅 05/2020 - 08/2020
🔗 https://progressive-overload.herokuapp.com/

Web application which allows users to track their own workouts and monitor other user's workouts.

- Front-end technologies: HTML, CSS and JavaScript.
- Back-end technologies: NodeJS, ExpressJS, MongoDB and more.

SUMMARY

I am passionate about all things digital and keen to pursue a career that allows me to express my creativity through digital platforms.

SKILLS

JavaScript ES5 / ES6 / ESNext

CSS3 / SASS   NodeJS   PHP

Dart / Flutter   Python / Flask

MongoDB   MySQL   Firebase
